Rome, May 27.-King Victor Emmanuel has assumed supreme command of the army and navy. He left incognito for the front. Only his ministers, who were confidentially informed of the intended departure of the king, bade him farewell.

During the king's absence the Duke of Genoa, Prince Thomas of Savoy, will carry on the duties of state in the name of the king but will refer all affairs of first impor tance to his majesty unless they are of the most urgent nature.

The Messagero, in paying a tribute to the king, says:

"The first citizen of Italy has left the capital to go to the front and be among his fighting troops. To him, who today set foot for the first time on Italian land, which until a few days ago was yet disunited from the mother country; to him, who in this moment is the symbol of the union and concord among all Italians, goes our augural salutation, in the hope for the highest success to the Italian

"For Victor Emmanuel has been reserved the highest fortune that ever a sovereign could enjoy-that he will see complete under his crown national

"To Victor Emmanuel go the grateful and solemn greetings of the entire Italian people.'

### WARSHIP IS SUNK IN DARDANELLES

### British Battleship Triumph Hit by Torpedo.

### MAJORITY OF CREW ESCAPE

Destroyers and Other Small Craft Make an Unsuccessful Pursuit of the Submarine-Loss of Triumph Makes Five Allied Warships Sunk in Operations Against Turks.

London, May 27,-The British battleship Triumph has been sunk in the Dardanelles, acording to an official announcement.

The majority of the officers and men, numbering about 700, were rescued. The war office statement says the captain and commander are

among those saved. The submarine was chased by destroyers and patrolling small craft.

The disaster to the Triumph is described in a brief statement by the admiralty, which says that, while operating in support of the Australian and New Zealand forces on the shore of the Gallipoli peninsula the Triumph was torpedoed by a submarine and sank shortly afterward.

The official announcement does not say whether the submarine was Turkish or German, but it probably was of the latter nationality, as the British legation at Athens recently offered a reward for the sinking of German submarines supposed to be in the Mediterranean.

### TRIUMPH FIFTH SHIP LOST

British Battleship Was Bought From Chilean Government.

London, May 27 .- With the sinking of the Triumph five allied battleships have been accounted for in the Dardanelles by Turkish gun fire, mines or 65,000,000 torpedoes. Of these losses the Brit-

In addition several other allied bat struck by Turkish ships and forced

to retire from the fighting. The battleship Triumph was built at Barrow in 1902 for the Chilean

government, but was purchased by Great Britain in 1903.

The Triumph, which was commanded by Captain Maurice E. Fitzmaurice, was a vessel of 17,985 tons and of 12,500 horse power. Its crew of officers and men in times of peace numbered about 700. The vessel carried four 10-inch, four 7.5-inch guns and fourteen 14-pounders and four 6pounders. In addition it carried two 18-inch torpedo tubes.

The Triumph was 436 feet long and had a speed of about twenty knots.

### BRITISH PUSHING FORWARD

Territorial Division Takes Group of German Trenches.

London, May 27 .- The following official statement was issued by the British war office:

"The first army continues to make progress east of Festubert. A territorial division carried a group of trenches, capturing thirty-five prisoners, and later captured one officer, twenty-one men and a machine gun. "Since May I the first army has

pierced the enemy's line on a total front of more than three miles. On this, the entire hostile front line system has been captured on a front of 3,200 yards, and on the remaining portion the first and second line trenches are in our possession.

"The total number of prisoners aken is eight officers and 777 other anks. Ten machine guns in all have allen into our possession, as well as a considerable quantity of material and equipment, particulars of which POSITION are not yet available."

He seldom came to the general The "drys" state that the kind of a dining saloon, either out of sensitive-

> Official opinion as to how the Lusitania came to be caught and why so many lives were lost remains a secret. The general unofficial opinion is that several German submarines were assigned to attack the liner and that they maneuvered her into a position where she could not escape.

### DECISION REDUCES TARIFF

Affects Goods Imported in American Vessels.

Washington, ,May 27 .- The so called per cent" clause of the tariff law granting a reduction of duties to that amount on goods imported in American ships, was sustained by the cus toms court, which held also that the per cent rebate must be granted on all goods imported in ships of those countries with which the United States has "favored nation" treaties. As such treaties exist with the principal countries of the world the effect

of the decision is practically to reduce the customs revenue by 5 per cent. If the decision is sustained by the supreme court of the United States, to which it will be appealed, approximately \$15,000,000 in duties already

On the Wrong Side.

collected must be refunded.

A temperance missionary in Glasgow left a few tracts with a young woman one morning. Calling at the same house a few days after, he was rather disconcerted to find the tracts doing duty as curl papers on the head of the damsel to whom he had given them. ye have used the tracts I left wi' ye. but," he added in time to turn confusion into merriment, "ye ha' putten them outside instead of inside your

BRAINERD, MINN.

March 5th 1915.

Peoples Ice Company, Brainerd, Minnesota.

Dear Sirs:-

In reply to your inquiry as regards the purity of the ice which you have put up ready for the market, will say that I have inspected the ice and also Pearch Lake from whence the ice was out.

Owing to the fact that there is practically no sewage discharged into this lake and that the flow of water into this lake is from surrounding underground springs, I would say that your ice is absolutely pure and wholesome for both cooling and drinking purposes.

March 5th 1915.

Peoples Ice Company, Brainerd, Minnesota.

Dear Sirs:-

In reply to your inquiry as regards the purity of the ice which you have put up ready for the market, will say that I have inspected the ice and also Pearch Lake from whence the ice was cut.

Owing to the fact that there is practically no sewage discharged into this lake and that the flow of water into this lake is from surrounding underground springs, I would say that your ice is absolutely pure and wholesome for both cooling and drinking purposes.

WHAT WAR MOVES MEAN

By J. W. T. Mason

The first preliminary movements f the various belligerents revealed last August in what directions the main offensives were to be developed. Similarly, Italy's initial advances yesterday indicate the objectives selected by the Italian general staff.

Incursions into Austrian territory ave been made during the last 24 yours in two directions. One is toward the northeast, the other toward the southeast. The two movements are separated by about 25 miles. They have no interrelationship. The northeastern advance carries the Ital-\$9,000,000 as against a corresponding lans into difficult mountain ranges and cannot long be pursued without

There is little possibility that the northeastern adventure will prove to have been an objective necessitating oprations far from the Italian border-

The occupation of important towns, several miles inside the Austrian boundary, which were demanded by Italy as the price of her neutrality, is probably the principal task set before the northeastern army. These towns are Tolmino and Plezzo, which are connected by the main mountain highway on the Austrian side of the boundary. This highway has been seized by the Italians as a point midway between Tolmino and Plezzo and about eight miles from either of them. With the capture of these mountain centers, the immediate objective of the northeastern offensive will probably have been realized and further operations will wait on the military circumstances of the situation.

The southeastern offensive is much more pretentious. It does not lead into Alpine mountains, but into a plain, broad enough for extensive operations. The objective of the southeastern advance is the occupation of Trieste and the province of Istria. The two railways that lead from Italian territory to the Trieste line have been seized by the Italians a few miles inside the boundary line of Aus-

The Italians must retain possession of these railways to continue their advance, and they have yet to cross several rivers before they can consider themselves on their way to

### TRIO FOUND DEAD IN HOUSE

Man, Wife and Mother-in-Law Discovered in Gas Filled Home.

Milwaukee, May 26.-John A. Schneider and his wife, fifty years old, and mother-in-law, Wilhelmina Pinske, eighty years old, were found

The gas range and gas jets throughout the house were turned on.

The gas from the turned on burners of the kitchen range were aflame and the bodies of Schneider and his wife

literally were roasted.

Though no motive was known the police and coroner's employes who investigated the mystery believe it to be one of double murder and suicide.

Bladder troubles you-Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts sionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is eloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste

get about four ounces of Jad Salts from any pharmacy; take a table spoonful in a glass of water before break fast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate slug gish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

Forks June 17 and 18. In the Grand Forks tournament an offer of \$325 added money and \$25 in

# How Gold Dust actually works for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually works. It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime everywhere and it cleans and brightens everything.

Gold Dust does all this—does this actual work—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface-leaving it sanitarily clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can. . \*

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware-for every cleaning and brightening purpose.

Gold Dust is as inexpensive as it is indispensable.

5c and larger packages sold everywhere

### TRIO FOUND DEAD IN HOUSE

Man, Wife and Mother-in-Law Discovered in Gas Filled Home.

Milwaukee, May 26.-John A. Schneider and his wife, fifty years old, and mother-in-law, Wilhelmina Pinske, eighty years old, were found dead in their home.

The gas range and gas jets throughout the house were turned on.

The gas from the turned on burners of the kitchen range were aflame and the bodies of Schneider and his wife literally were roasted.

Though no motive was known the police and coroner's employes who investigated the mystery believe it to be one of double murder and suicide.

In the Grand Forks tournament an offer of \$325 added money and \$25 in trophies is hung up.

# How Gold Dust actually works for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually works. It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime everywhere and it cleans and brightens everything.

Gold Dust does all this—does this actual work—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitarily clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can. . \*

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.

GOLD DUST TWINS

Gold Dust is as inexpensive as it is indispensable.

### DIPLOMACY TO SETTLE DISPUTE

Little Likelihood of United States Going to War.

### NOTHING TO GAIN BY IT.

On the Other Hand, Germany Has Nothing to Gain by Fighting This Nation-Time a Great Healer of All Differences, and Interest of Both Nations Will Pass to Something Else.

#### By ARTHUR W. DUNN.

Washington, May 27 .- [Special.]-The United States is not going into any war with European nations, either on one side or the other of that great struggle. Notwithstanding what was regarded as a war note to Germany, there was behind it all an opportunity to enter into diplomatic correspondence and for each nation to restate its case. Meanwhile time, that great healer of all differences, when there is a sincere desire to avoid conflict, will pass, and the interest of both nations will go on to something else.

There are two great reasons why the United States and Germany should not go to war. One is that the United States could not gain anything, and the other is that Germany could not gain anything. Modern war is fought for gain on one side or the other, Without anything in sight in the way of valuable territory as indemnity, why should nations go to war?

#### Anti-British Feeling.

The national administration has been made aware in the form of communications and interviews with prominent men that there is an anti-British sentiment in this country which is pronounced. While it has been assumed from the beginning that Germany was rors, many people familiar with the inside of the diplomatic dickering are thinking that England might have avoided the war; that she might have checked France, withheld Russia and finally have allowed the Austrian-Servian question to have been settled on

#### Found Themselves In Accord.

"If Elihu Root should become president," remarked Senator Hoke Smith of Georgia, "I do not believe we would have many differences of opinion on the important subjects before the country. We were much in accord when he was in the senate and outside of matters which are purely partisan we were always in accord. Mr. Root is one of the broad minded statesmen of our time. His experience has made him a useful citizen."

### Queer Names In Iowa.

The officers of the geological survey who have been going over Iowa with a view to ascertaining the amount of water flow have come to the conclusion that the state has many queer names for its streams. There are instanced Farm creek, Farmers' creek, Chicken creek, Duck creek, Goose creek, Turkey creek, Pigeon creek, Fox, Hawk, Rat. Mosquito and Cold Water creeks, besides Hog run. Mud creek, Bacon creek, Bee creek, Honey, Crabapple, Plum and other creeks for trees, while animals are represented by Bear, Panther, Beaver, Buck, Crane, Deer, Raccoon, Skunk, Wolf, Crow and Fly creeks. Not forgetting the beverages, there are Keg and Whisky creeks and Whisky run, in addition to Purgatory creek

All such names originated in the days of early settlement by the discovery, some sight or killing of an animal, or because something has called forth the name by a local condition or oc-

### What About Governor Johnson?

The Johnson family has figured quite prominently first and last in the politics of the country and just now there is speculation as to the intentions of Governor Hiram Johnson of California, He is the leader of the bull moose on the Pacific coast, and if he should decide to come back into the Republican party it would mean that little would be left of the third party on the coast. There is some talk of baiting him with a vice presidential nomination. Money Enough.

Congressman Fitzgerald, who will be chairman of the committee on appropriations in the next congress, says that there will be money enough for all government purposes, even with the falling off of revenues. He says that revenues will increase from this time forward, and, although he deprecates the extravagant appropriations made during the past four years, he still believes the Democrats can make a rec ord for economy if there are no ex traordinary demands such as might be

#### brought about in case of a war. Different Sort of a Progressive.

Senator Clapp of Minnesota never loses an opportunity to declare his adherence to progressive policies and denounce reaction. Probably President Wilson would eall himself a progressive in the broad sense, and yet it shows what a difference there is between progressives. Clapp does not at all agree with the president in many things. He is totally against him on many subjects. On one point in particular, the interference of the president in legislative matters, Clapp went so far as to tell the president that he was exceeding the authority conferred upon him by the constitution. Clapp has many progressive ideas not shared by the president.

What About Governor Johnson? The Johnson family has figured quite prominently first and last in the politics of the country and just now there is speculation as to the intentions of Governor Hiram Johnson of California. He is the leader of the bull moose on the Pacific coast, and if he should decide to come back into the Republican Riverton Townsite Co. et al to E. W party it would mean that little would be left of the third party on the coast. There is some talk of baiting him with a vice presidential nomination.

Money Enough. Congressman Fitzgerald, who will be chairman of the committee on appropriations in the next congress, says that there will be money enough for falling off of revenues. He says that revenues will increase from this time forward, and, although he deprecates the extravagant appropriations made during the past four years, he still believes the Democrats can make a record for economy if there are no extraordinary demands such as might be brought about in case of a war.

Different Sort of a Progressive. Senator Clapp of Minnesota never loses an opportunity to declare his adherence to progressive policies and denounce reaction. Probably President Wilson would call himself a progressive in the broad sense, and yet it shows what a difference there is between progressives. Clapp does not at all agree with the president in many things. He is totally against him on many subjects. On one point in particular, the interference of the presideat in legislative matters. Clapp went so far as to tell the president that he was exceeding the authority conferred upon him by the constitution. Clapp has many progressive ideas not shared by the president.

"To whom?" Quest asked quickly., "To my servant Craig," the professor admitted with a groan.

Lenora gave a little cry She turned I have followed all over the world, triumphantly towards the inspector. whom I have served faithfully with "All recollection as to its locality | the last breath of my body and the had escaped me," the professor continued sorrowfully. "I remember that have brought them here tracked me it was on the anniversary of his have down! You!" years that I decided to show him rowfully. some substantial mark of my apprectation. I knew that he was looking the best servant man ever had. It for a domicile for his father and mother, who are since both dead, and I requested a house agent to send a dog's death is none too good for me in a list of sultable residences. you." This, alas! was the one I purchased."

Quest glanced around the place. "I think," he said, "that the professor's statement now removes any foot into what seemed to be a leathdoubt as to Craig's guilt. You are sure the house has been closely Then a wild shout of surprise broke watched, inspector?

"Since I received certain information," French replied, "I have had The whole stafrcase suddenly began half a dozen of my best men in the to revolve. Craig; clinging to the vicinity. I can assure you that no banisters, disappeared. In a moment one has entered or left it during the or two there was a fresh click. An last twenty-four hours."

They made their way to the plazza first, had taken their place. steps and entered by the front door. The house was an ordinary framework one of moderate size, in poor repair, and showing signs of great neglect. The rooms were barely furnished and their first cursory search revealed no traces of habitation. There was still the broken skylight | FIREMEN TO GATHER JUNE 8 in the room which Lenora had occupied, and the bed upon which she had slept was still crumpled. French, who had been tapping the walls downstairs, called to them. They trooped down into the hall. The inspector was standing before what appeared to be an ordinary panel.

"Look here," he said, glancing out of the corner of his eye to be sure that Laura was there, "let me show you what I have just discovered."

He felt with his thumb for a spring. In a moment or two a portion of the wall, about two feet in extent, slowly revolved, disclosing a small cupboard fitted with a telephone instru-

"A telephone," the inspector remarked, pointing to it, "in an unoccupied house and a concealed cupboard. What do you think of that?" The professor shook his head.

'Don't ask me," he groaned. French took the receiver from its

rest and called up the exchange "Inspector French speaking," he announced. "Kindly tell me what is the number of the telephone from which I am speaking, and who is the subscriber?"

He listened to the reply and asked another question.

"Can you tell me when this instrument was last used? . . . When? Thank you!'

The inspector hung up the receiver. "The subscriber's name," he told them dryly, "is Brown. The number is not entered in the book, by request. The telephone was used an hour ago from a call office and connection was established. That is to

telephone. "Then if your men have maintained their search properly, that someone." Quest said slowly, "must be in the house at the present moment."

say, that someone spoke from this

"Without a doubt," the inspector agreed.

"I am going to search the front ity of the various factions, pointing room on the first floor before we do out that none seems to have the eleanything else," said Quest. "I think that if you wait here I may be able to show you something directly."

Quest ascended the stairs and entered a wholly unfurnished room on the left-hand side. He looked for a minute contemplatively at a large but rather shallow cupboard, the door of which stood open, and tapped lightly with his forefinger upon the back part of it. Then he withdrew a few feet and tied the can to his dog's tail in and, drawing out his revolver, delib. an effort to give the canine a sudden erately fired into the floor, a few and painless death Nick Stanich, a inches inside. There was a half miner, is minus a front porch, stifled cry. The false back suddenly swung open and a man rushed out. Quest's revolver covered him, but of running in another direction the there was no necessity for its use. Craig, smothered with dust, his face familiar with the eccentricities of dywhite as a piece of marble, even his namite to enjoy its propinquity. jaw shaking with fear, was wholly unarmed. He seemed, in fact, incapable of any form of resistance.

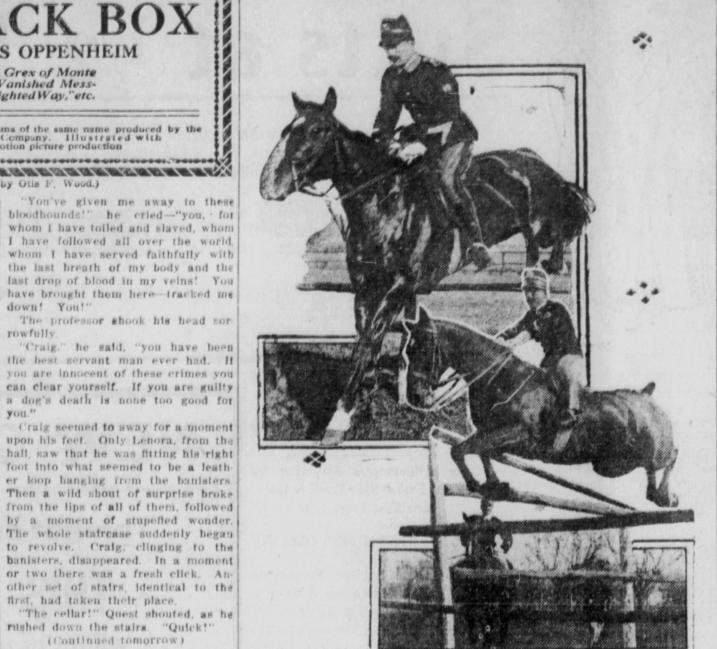

"Walk out of the room," Quest or in the porch. There was a loud redered, "in front of me-so! Now port. turn to the right and go down the

They all gave a little cry as they saw him appear, a trembling, pitiful Stanich with a glad bark. creature, glancing around like a trapped animal. He commenced to descend the stairs, holding tightly to the banisters. Quest remained on the landing above, his revolver in his hand. French waited in the hall be low, also armed. Laura gripped Le nora's arm in excitement.

"They've got him now!" she ex claimed. "Got him, sure!"

On the fourth or fifth stair Crais hesitated. He suddenly saw the professor standing below. He gripped the banisters with one hand. The other he flung out in a threatening gesture.

The dog, wagging its tail, greeted A few years ago the release of the sharp sound of the motor served as a somewhat efficient warning signal, and the cutout has therefore been retained by many manufacturers for this purpose. Because of its abuse, however, it has lost its effectiveness, and with the marked increase in the range and efficiency of the present day electrical and mechanical warning signals, we may even assume that the motorist who uses the cutout for this purpose is advertising the fact that he has not taken the precaution to equip his car with an adequate horn or other signaling device.

RURAL LIFE CONFERENCE

the University Farm, St. Paul, July 2 to 30

Minnesota's second rural life conerence will be held at University Farm, St. Paul, July 27 to 30.

The first conference of this kind entont open. There is absolutely beld last July, while not largely attended, revealed the possibilities of such meetings and developed a great deal of enthusiasm. As a result a very large attendance is expected this year and a program of interest has

Otis Bemies, of McClellandtown, Pa., a man who has made a careful study such conferences. Br. Bemies is on he program for four lectures.

On the program also are men who have done exceptional things in Minnesota. Among these are E. H. Edwards, a pastor of Castle Rock, Minpesota and E. C. Hickman, of Byron, Minnesota. The latter will discuss he rural church and country life, nd the former will lead the discusion on rural life problems in genral. A. M. Locker, secretary of the Minnesota Sunday School Union, will alk of the Sunday school as a factor n rural life. The Boy Scout and amp Fire Girls movements will be presented by J. H. Kolb, secretary of he Young Men's Christian Associaion at University Farm.

That those in attendance at the onference may be brought into closst touch with some of the practical problems of rural life, the program includes addresses and demonstration by men of the faculty of the college and school of agriculture. Among these are Dean A. F. Woods, D. D. Mayne, Andrew Boss, T. L. Haecker, A. D. Wilson, W. G. Brierley, Franis Jager, E. C. Stakman and LeRoy lady. It is expected also that a symposium of opinion by the editors of the state on rural life problems will Farmer's Produce Co. be presented.

The conference, it is believed, will attract many to University Farm at ribute publicly to his own careless- the time set. The best of accommoness and doubt in his mind as to the dations can be had and those in at tendance will be given not only a profitable, but a very enjoyable out-

It for a domicile for his father and you are innocent of these crimes you mother, who are since both dead, can clear yourself. If you are guilty and I requested a house agent to send a dog's death is none too good for me in a list of suitable residences. you." This, alas! was the one I purchased."

Quest glanced around the place. "I think," he said, "that the professor's statement now removes any doubt as to Craig's guilt. You are er loop hanging from the banisters sure the house has been closely watched inspector?'

"Since I received certain information," French replied, "I have had half a dozen of my best men in the to revolve. Craig, clinging to the vicinity. I can assure you that no banisters, disappeared. In a moment one has entered or left it during the or two there was a fresh click. Anlast twenty-four hours"

They made their way to the plazza first, had taken their place, steps and entered by the front door. The house was an ordinary framework one of moderate size, in poor repair, and showing signs of great neg The rooms were barely fur nished and their first cursory search | Tuesday, revealed no traces of habitation. There was still the broken skylight FIREMEN TO GATHER JUNE 8 in the room which Lenora had occu pied, and the bed upon which she had slept was still crumpled. French, who had been tapping the walls downstairs, called to them. They trooped down into the hall. The inspector was standing before what appeared to be an ordinary panel.

"Look here," he said, glancing out of the corner of his eye to be sure that Laura was there, "let me show you what I have just discovered."

He felt with his thumb for a spring. In a moment or two a portion of the wall, about two feet in extent, slowly revolved, disclosing a small cup

marked, pointing to it, "in an unoccupied house and a concealed cupboard. What do you think of that? The professor shook his head.

'Don't ask me," he groaned French took the receiver from its

rest and called up the exchange. "Inspector French speaking," he announced. "Kindly tell me what is the number of the telephone from which I am speaking, and who is the subscriber?'

He listened to the reply and asked another question

"Can you tell me when this instrument was last used? . Thank you!"

The inspector hung up the receiver "The subscriber's name," he told Duval West Reports Adversely or them dryly, "is Brown. The number is not entered in the book, by request. The telephone was used an Wilson does not contemplate any nection was established. That is to of the report by Duval West, his spesay, that someone spoke from this telephone.
